PROFESSIONAL SUMMARY

Multidisciplinary M.Sc. graduate in Applied Entrepreneurship with expertise in project management, venture building, and AI-driven process automation. Proven track record in optimizing operational workflows, translating complex concepts into compelling narratives, strategic stakeholder coordination, and driving growth through data-driven strategies. Combines advanced proficiency in Generative AI Agents with business operations to enhance brand visibility, streamline cross-functional projects, and translate complex business objectives into high-impact, scalable results. Extensive experience from 0-to-1 venture building to high-growth tech scale-ups.

CORE COMPETENCIES

Venture Building & GTM Strategy: End-to-end ideation, MVP development, market validation, Lean Startup, and Go-To-Market execution.

AI & Autonomous Curation Engines: Architecting autonomous AI agent workflows (n8n, Zapier, LLMs) for content curation, data processing, and distribution.

Digital Marketing & Creative: Social Media Strategy, Content Creation, Brand Storytelling, Digital Engagement, and Adobe Creative Cloud.

Project & Operations Management: Cross-functional coordination, operational scaling, CRM management, KPI tracking, and agile methodologies (Scrum/Kanban).

Stakeholder & Investor Relations: Pitch deck creation, fundraising roadshows, public grant coordination, and executive communication.

Data, Languages & Tools: SQL, Metabase, Advanced Excel. English (Native/Bilingual), German (B2), Hindi/Bengali (Native). Notion, Trello, Slack.

PROFESSIONAL & ENTREPRENEURIAL EXPERIENCE

Junior Sales Assistant (Working Student)

Apr 2025 - Present

Zalando | Bielefeld, Germany

- Execute critical retail logistics and identify digital bottlenecks within Europe's largest retail logistics ecosystem.
- Collaborate with cross-functional teams to ensure operational excellence and support the execution of operational commercial goals.

Founder & AI Automation Architect

Nov 2024 - Present

AI Appetite | Bielefeld, Germany (Remote)

- Architected and deployed a fully autonomous AI news curation and content generation engine providing free weekly briefs targeted toward B2B clients.
- Programmed multi-agent workflows integrating multiple LLMs to scrape, rank, and structure B2B insights directly into optimized HTML templates.
- Integrated cloud databases (Google Sheets & Notion APIs) with email distribution nodes to automate high-volume subscriber segmentation.
- Built automated fallback protocols to systematically manage API rate limits and system stability under error conditions.

Research Assistant – Project & Academic Support

Apr 2023 - Apr 2024

OWL University of Applied Sciences and Arts | Lemgo, Germany

- **Project Coordination & Grant Support:** Managed high-priority departmental initiatives and third-party funded startup projects ("Exist Women", "Impact Unicorn"). Owned timelines and milestone deliverables for strict institutional deadlines.
- **Administrative Reporting:** Assisted in strategic preparation of public grant applications and detailed project compliance reporting.
- **Stakeholder Management:** Served as key communications interface at the InnovationSPIN, coordinating event scheduling across industrial partners, stakeholders, and student founders.
- **Academic & Rhetorical Coaching:** Built high-impact presentation materials, evaluated student pitch decks, and provided actionable feedback for modules like "Start-Up Engineering".

Co-Founder & CEO

Nov 2022 - Jan 2025

Pictura | Bielefeld, Germany

- **Venture Building & Extreme Ownership:** Spearheaded end-to-end ideation, MVP development, and go-to-market strategy for a decentralized Web3 social media platform.
- Launched MVP and deployed targeted marketing frameworks to onboard 850 active beta test users to systematically validate platform stability.
- **Investor Relations & Fundraising:** Constructed data-driven pitch decks and orchestrated comprehensive fundraising roadshows across Germany. Selected for the STEP USA program, pitching directly to US-based investors.
- Accelerated product development through active participation in prominent regional incubators (Campus Foundry, Garage33).

Project Management Associate (Strategy & Operations)

Oct 2021 - Sep 2022

Dunzo | Bengaluru, India

- **Operational Scaling:** Acted as the central point of contact and operational backbone for high-speed cross-functional projects between Product, Strategy, and City teams.
- **Data-Driven Operations:** Analyzed real-time data (SQL, Metabase) to identify operational bottlenecks, driving decisions that maintained a 95%+ service-level consistency.
- Spearheaded pilot projects that reduced process-level delays by 15% through meticulous workflow analysis and the implementation of streamlined frameworks.

Marketing and Business Development Intern

Aug 2020 - Mar 2021

Myntra | Bengaluru, India

- **B2B Partnerships & Onboarding:** Executed aggressive B2B outreach and managed the strategic onboarding of international brand partners.
- **Process Optimization:** Streamlined brand onboarding and inventory management processes, reducing operational turnaround times by 20-30% through automated tracking alerts.
- **KPI Analysis:** Monitored category KPIs and ROI using Excel dashboards to identify growth opportunities and optimize sell-through rates during high-traffic peak events.
- Executed influencer collaborations and brand partnerships, coordinating cross-functional visibility plans to drive platform engagement.

EDUCATION & CERTIFICATIONS

M.Sc. in Applied Entrepreneurship (Grade: 1.7)

Oct 2022 - Nov 2025

OWL University of Applied Sciences and Arts | Lemgo, Germany

- **Master Thesis (Grade 1.0):** "Harnessing AI in Digital Marketing" - Empirical and technical analysis of AI potential and workflow optimization.

B.A. in English Language and Literature (Grade: 1.0)

Mar 2019 - Oct 2021

Netaji Subhash Open University | Kolkata, India

Certifications & Awards:

- **Awards:** Winner, Hinterland Hack 2025 (Schnellecke Logistics Challenge); Finalist, FameLab Germany 2024; Winner, CIIT Science Slam 2023.
- **Certifications:** McKinsey Forward Program Graduate, Wharton Entrepreneurship Specialization, UCI Fundamentals of Management, Building and Deploying GenAI Agents for Process Automation, NaWik Communication Masterclass.
